Professional Summary

Computer Science Engineering student specializing in Full-Stack Development, Data Structures & Algorithms, and Object-Oriented Programming. Proficient in Java, Python, React.js, MySQL, and machine learning frameworks including Scikit-learn and TensorFlow. Delivered 3 end-to-end projects spanning frontend UIs, ML pipelines, and AI-powered tools. Solved 250+ coding problems. Seeking a General Developer role to build impactful software solutions at a product-driven engineering team.

Education

B.Tech – Computer Science in Artificial Intelligence

Noida Institute of Engineering and Technology, Greater Noida, India

11/2022 – Present

12th Grade (86%)

Parmeshwari Devi Dhanuka SVM, Vrindavan, India

04/2020 – 05/2021

10th Grade (86%)

Bhaktivedanta Gurukula and International School, Vrindavan, India

04/2018 – 04/2019

Technical Skills

Languages: Java, Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend & Database: REST APIs, MySQL (Joins, Indexing), MongoDB, JSON

ML Frameworks: Scikit-learn, TensorFlow 2.x

NLP: NLTK, TF-IDF, Tokenization, Lemmatization, Bigram Analysis

Data Science: Pandas, NumPy, Matplotlib, Seaborn, Confusion Matrix Analysis

Tools & Platforms: Git, GitHub, VS Code, Postman, Vite, Google Colab, Jupyter Notebook

Core Concepts: OOP, DSA (Sorting, DP, Graphs), DBMS, SDLC, Agile Development, API Integration

Certifications

- **Oracle Cloud Infrastructure 2025 Generative AI Professional** – Oracle University (Sep 2025, valid until 2027)
- **AWS Cloud Practitioner Essentials** – Amazon Web Services (Mar 2026)
- **Artificial Intelligence with Machine Learning in Java** – Oracle Academy (May 2025)
- **Python for Data Science, AI & Development** – IBM / Coursera (Apr 2023)

Projects

AI Resume Analyser – Full-Stack AI Tool

[GitHub](#)

- Developed a full-stack AI-powered resume analysis tool using Python, React.js, and NLP that parses uploaded resumes and delivers structured feedback on skills, formatting, and ATS compatibility using the Claude API.
- Engineered NLP-driven keyword extraction (TF-IDF, NLTK) to match candidate profiles against job descriptions, generating a quantified match score and 5+ targeted improvement suggestions per analysis.
- Designed a React.js frontend with real-time analysis feedback, enabling resume uploads and instant AI-generated insights with **zero page reloads** and responses delivered in under **3 seconds**.

Algorithm Visualizer – Interactive Learning Platform

[GitHub](#)

- Created a responsive algorithm visualization platform covering **12** sorting and searching algorithms, translating abstract computer science concepts into real-time animated walkthroughs using HTML, CSS, and JavaScript.
- Added interactive controls for dynamic array size, animation speed, and step-through execution mode using modular vanilla JavaScript, enabling self-paced learning without external dependencies.
- Achieved a **95+ Google Lighthouse** performance score through optimized DOM manipulation and consistent **60 FPS** rendering, demonstrating strong front-end performance engineering.

Swoley-Fit – Full-Stack Fitness Web Application

[GitHub](#)

- Built a fitness tracking web application using React.js, Tailwind CSS, and Vite with a dynamic workout generator, exercise library, and progress tracking dashboard for **3+ muscle group categories**.
- Structured all application state with React hooks (useState, useEffect) and a component-based architecture, achieving full responsiveness across mobile, tablet, and desktop viewports without external state libraries.
- Configured Vite's module bundler to reduce production build size by **30%** compared to Create React App baseline, improving page load performance.

Achievements

- **eLitmus pH Test:** Achieved **86.5 percentile** in quantitative reasoning, logical analysis, and problem-solving.
- **NCAT 2025 – National Creativity Aptitude Test:** Cleared with **96.7%** in Engineering Category.
- Solved **250+ coding problems** across LeetCode and GeeksforGeeks, improving problem-solving accuracy by **35%** within one year.
